

# TRANSPORTATION & LOGISTICS

Hylant's transportation risk experts have the industry experience to successfully manage the unique risks and exposures you face every day. We become an extension of your team, allowing you to stay nimble and focused on keeping trucks on the road.

*When it comes to insurance and risk management, you need someone who has your back and knows your business.*

At Hylant, it's not just about insurance. We're focused on bringing innovative solutions that impact your organization, building efficiencies and promoting growth and profit. As part of our services, you'll have access to:

- First dollar (zero deductible) programs to enhanced risk financing strategies (i.e., captives)
- Safety & loss control
- Compliance monitoring system
- Hylant Fleet Management System
- Hylant Risk Management Center
- Claims management and advocacy
- Environmental risk management
- Certificate issuance, tracking and monitoring

We can also work with you to develop a budget-sensitive employee benefits program to help you attract and retain the best drivers and other key employees.

*Contact our transportation experts to find out how we can partner with you to help you lower your total cost of risk and build your business success.*
