

Welcome to Cyber JumpStart

Presented by Astra Insurance – Powered by Arctic Wolf

Thanks to Astra Insurance, you now have complimentary access to Cyber JumpStart, a curated suite of cybersecurity tools designed to help you reduce risk, improve insurability, and build cyber resilience.

What is Cyber JumpStart?

Cyber JumpStart is a self-service portal that gives you access to a suite of Arctic Wolf's risk management tools. These tools are streamlined versions of Arctic Wolf's enterprise-grade solutions designed to deliver maximum impact with minimal lift. While they aren't full-service offerings, they focus on the most common root causes of cyber insurance claims, helping you proactively address vulnerabilities, improve preparedness, and reduce risk — all at **no cost to you**.

How do I access Cyber JumpStart?

- 01 Designate a Representative**
This individual can register your organization and serve as your team administrator.

- 02 Register Your Organization**
Use the following link: <https://cyberjumpstart-reg.arcticwolf.com/cjs/hylant> to securely create your account and input your organization's information

- 03 Invite Your Teammates**
Now that your organization is registered, invite teammates to work on your Cyber JumpStart all in one spot.

- 04 Start Your Journey**
Begin your complimentary threat scanning, IR planning, and learning from our project guides to help end your cyber risk.

What's Included in Cyber JumpStart?

JumpStart Threat Scanner

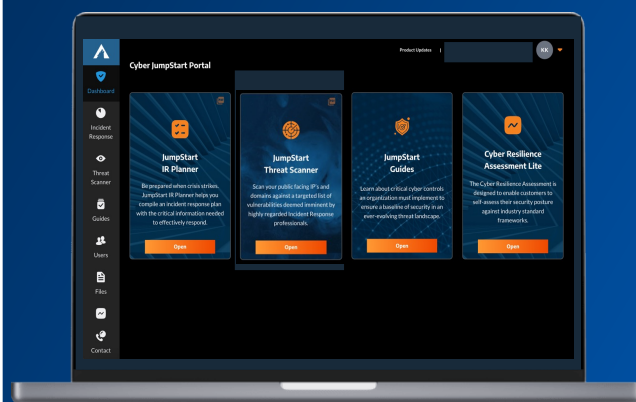

Consistently scan your environment for the threats that cause over 72% of Arctic Wolf's incident response cases, remediate them, and stay protected.

JumpStart IR Planner

Collect and organize the critical Information needed to reduce your business interruption from an incident before disaster strikes.

JumpStart Guides

Close your security gaps with education, resources, and pre-built tasks to implement the most effective cyber safeguards.
